Using our own production, we produce completely natural pillows in 7 different dimensions and with 7 different fillings, which offer a gentle massage and silky softness. Bonatura pillows are handmade from all-natural and eco-friendly ingredients - the casing is made of 100% certified cotton and natural filling. Compared to traditional pillows, our pillows are stuffed with straws or husks of buckwheat seeds, spelt and millet as well as sheep wool balls, vegetable kapok yarns and cherry kernels; all natural fillings that provide a comfortable and natural sleep. All fillings are natural, free of artificial additives and chemicals.

We are convinced that we will satisfy even the most demanding customer and find a solution for a comfortable sleep and put all of your troubles to bed.

Bonatura pillows should be suited to you and to your skin. Therefore, they are made of textiles that are subject to strict controls. This product holds the international eco-friendly Oeko Tex Standard 100 certificate and is skin-friendly.

Among numerous labels accompanying textile products, we are particularly fond of those that tell us that the product does not contain hazardous substances and is therefore friendly to people and the environment. One of these environmental labels is the Oeko-Tex® Standard 100, which has been adorning garments or textiles that have successfully passed the hazardous substance check in order to minimize health risks since 1992.

We make no compromises when it comes to quality. Your well-being comes first.

BUCKWHEAT PILLOW

The main advantages of the natural buckwheat pillow and how it can contribute to the quality of your sleep or rest are:

- heat control - keeps you warm in winter and cool in summer
- conducts moisture, which prevents sweating
- flexibility and breathability, which prevent the growth of mites, and is thus suitable for persons with mite allergies and asthmatics
- anatomical adjustment - the husks adjust completely to your head and neck
- micromassage
- positive energy transfer due to the shape of the buckwheat husks

USE

Our buckwheat pillow is suitable for anyone from 5 years of age onward who is looking for a quality, comfortable and natural sleep.

FILLING

100% natural filling made of thermally (heat-treated) modified, sorted and manually purified buckwheat husks.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

Not only does the pillow provide a high level of comfort, but it can also alleviate problems with:

- migraines (headaches)
- pain in the cervical spine, shoulders, nape and head
- insomnia
- joint pain
- improves blood circulation

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. Washing the filling is not recommended. The practical zipper also allows you to add, remove, replace or clean the filling. We recommend that you air the pillow at least 2 times a year to allow the filling to aerate and captivate you with the scent of nature once again.

The main feature of buckwheat husks are natural antioxidants and rutin, which has an antiviral and mildly antibacterial effect. Compared to other natural fillings (spelt husks), they are finer, which gives the pillow even more softness. Husks have a massaging effect - micromassage, so they can help with different kinds of pain. This pillow will captivate you with its smoothly sour scent of buckwheat.

Available in sizes:

Always the right choice

SPELT PILLOW

The main advantages of the natural spelt pillow and how it can contribute to the quality of your sleep or rest are:

- heat control - keeps you warm in winter and cool in summer
- conducts moisture, which prevents sweating
- flexibility and breathability, which prevents the growth of mites
- micromassage
- anatomical adjustment - the husks adjust completely to your neck and head

USE

Our spelt pillow is suitable for anyone from 5 years of age onward who is looking for a quality, comfortable and natural sleep.

FILLING

100% natural filling made of thermally (heat-treated) modified, sorted and manually purified husks. Dust particles are removed.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

Not only does the pillow provide a high level of comfort, but it can also alleviate problems with:

- migraines (headaches)
- pain in the cervical spine, shoulders, nape and head
- insomnia
- joint pain
- improves blood circulation

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. The practical zipper also allows you to add, remove, replace or clean the filling - husks. We recommend that you air the pillow at least 2 times a year to allow the filling to aerate and captivate you with the scent of nature once again.

The main feature of spelt husks is their natural content of quartz acid crystals, which have a similar effect on the body to healing clay. Compared to other fillings it is more sturdy and coarse, yet soft and velvety to the touch. Husks have a massaging effect - micromassage, so they can help with different kinds of pain. This pillow will charm you with its gentle smell of hay.

Suitable for rest and sleep

MILLET PILLOW

The main advantages of the natural millet pillow and how it can contribute to the quality of your sleep or rest are:

- offers extremely soft support for a pillow filled with husks
- anatomical adjustment - the husks adjust completely to your head and neck
- the husks retain their shape
- very quiet filling

Not only does the pillow provide a high level of comfort, it can also alleviate problems with:

- migraines (headaches)
- pain in the cervical spine, shoulders, nape and head
- insomnia

USE

Our millet pillows are suitable for anyone from 5 years of age onward who is looking for a quality, comfortable and natural sleep.

FILLING

100% natural filling made of sorted and manually purified millet husks.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. The practical zipper also allows you to add, remove, replace or clean the filling - husks. We recommend that you air the pillow at least 2 times a year to allow the filling to aerate and captivate you with the scent of nature once again.

The main feature of millet husks is their round shape, which provides dense and soft support that makes the pillows look very luxurious. The husks are very quiet and surprisingly smooth, fully supporting the weight of the head and neck without losing their shape. Due to the small structure of the husks, the pillows are comfortable even with more filling, so they are suitable for all who like higher pillows. This pillow will fascinate you with its scent of a mill.

Available in sizes:

For comfortable relaxation at all times

WOOL PILLOW

The main advantages of a wool filling are:

- heat control - keeps you warm in winter and cool in summer
- softness that results in comfort
- compactness and lightness
- moisture removal, which prevents sweating
- anatomical adjustment - adjusts to your neck and head
- flexible filling for all sleeping positions
- flexibility and breathability

Not only does natural sheep wool provide a high level of comfort but it can also help with:

- headaches
- migraines
- insomnia
- alleviates rheumatic problems and
- relieves pain from chronic vertebral wear and tear

USE

Our wool pillow can be suitable for anyone from 1 year of age onward who is looking for a quality, comfortable and natural sleep.

FILLING

100% natural filling - woolen balls (Slovenian sheep wool from organic farming).

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. Washing the filling is not recommended. Over time, simply loosen the woolen balls with your hands. The practical zipper also allows you to add, remove or change wool. We recommend airing the pillow at least 2 times a year.

The main feature of wool filling is excellent thermal insulation, making this pillow very useful both in winter and in summer. The filling may contain as much as 30% water and still not appear moist. The pillow thus provides a comfortable, sweat-free sleep as wool binds moisture and removes it quickly as well. Therefore, it prevents the growth of mold, microorganisms and mites. It is also suitable for persons who are allergic to dust mites, as wool repels dust and mites. Despite their softness, woolen balls offer optimal neck and head support. Compared to the pillows filled with husks, this one is extremely soft and lightweight.

Available in sizes:

For a healthy and comfortable sleep

KAPOK PILLOW

The main advantages of the kapok pillow are:

- it repels moisture, creating an unfriendly environment for mites, molds and bacteria
- it is naturally hypoallergenic - does not cause allergies
- silky softness "like a gentle baby touch"
- natural fluff
- durability - strong fibers provide a longer life
- environmentally and people friendly
- great fit

Pillows and cushions filled with fluffy organic kapok yarn offer luxurious softness and have a disintegrating effect. Floating natural kapok fibers are often used as an alternative to wool and synthetic latex and are fully customizable.

USE

Our kapok pillow is also suitable for babies from 1 year of age due to its tenderness and silky softness.

FILLING

100% natural filling - organic kapok yarn.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

MAINTENANCE AND CARE

The pillow can be washed at 60° together with the filling. Simply loosen the kapok filling with your hands before bedtime. The pillow has a practical sewn zipper that allows you to add, remove, replace or clean the filling. We recommend that you air the pillow at least 2 times a year to allow the filling to aerate and captivate you with its scent of nature once again

The main feature of kapok yarn is that it is extremely lightweight, because the volume of yarn is made up by as much as 80% air, so that it acts as natural fluff. Our kapok pillow is handmade from 100% cotton and a fine cotton-like plant fiber that is hollow on the inside and coated with a natural antibacterial substance. As organic plush, this naturally soft, silky and healthy pillow is a great natural alternative. It is 8 times lighter than cotton, odorless and soft as silk. Kapok yarn is one of the few forest products that is 100% organic and has no adverse effects on the environment during its growth, production and use. The pillow is easily adjustable to fit your head and neck in any position during sleep. The pillow is odorless.

Total comfort

CHERRY PIT PILLOW

The main advantages of the cherry pit pillow:

- offers an intense massage
- anatomical adjustment - the pits adjust completely to your neck and head
- flexibility and breathability, which prevents the growth of mites, making it suitable for persons allergic to dust mites
- improves blood circulation

This pillow can alleviate problems with:

- migraines (headaches)
- pain in the cervical spine, shoulders, nape and head
- tense muscles

USE

Our cherry pit pillow is designed for persons who require a lot of micromassage in addition to relaxation.

FILLING

100% natural filling - purified cherry pits.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. Washing the filling is not recommended. The practical zipper also allows you to add, remove, replace or clean the pits.

The main feature of the cherry pit pillow is its considerable weight, so it is available in smaller sizes. The pillow is odorless. Did you know that cherry pits are great for use in warm-cold pillows?

Available in sizes:

XS
S

An endless massage

MIXED HUSKS (BUCKWHEAT - SPELT)

The main advantages of the natural mixed pillow and how it can contribute to the quality of your sleep or rest are:

- heat control - keeps you warm in winter and cool in summer
- conducts moisture, which prevents sweating
- flexibility and breathability, which prevents the growth of mites, making it suitable for persons allergic to dust mites
- anatomical adjustment - the husks adjust completely to your neck and head
- micromassage

Not only does the pillow provide a high level of comfort, it can also alleviate problems with:

- migraines (headaches)
- pain in the cervical spine, shoulders, nape and head
- insomnia
- joint pain
- improves blood circulation

USE

The mixed pillow is suitable for anyone from 5 years of age onward who is looking for a quality, comfortable and natural sleep.

FILLING

100% natural filling - sorted, manually purified and heat-treated spelt and buckwheat husks.

CASING

Made from specially selected soft and densely woven 100% cotton. Does not contain harmful substances - tested according to the Oeko tex standard 100.

MAINTENANCE AND CARE

The pillow has a sewn zipper to allow the pillow casing to be washed at 60°. Washing the filling is not recommended. The practical zipper also allows you to add, remove, replace or clean the filling - husks. We recommend that you air the pillow at least 2 times a year to allow the filling to aerate and captivate you with the scent of nature once again.

The main features of buckwheat husks are natural antioxidants and rutin that have an antiviral and mildly antibacterial effect. The main feature of spelt husks is their natural content of silica crystals that have a similar effect on the body to healing clay. The mixed pillow has a filling made of same amounts of buckwheat and spelt husks. The husks have a massaging effect-micromassage, so they can help with different kinds of pain. This pillow will captivate you with its scent of nature.

For rest and comfort

FOR YOUR WELL-BEING

MATTRESS PAD

A mattress pad filled with buckwheat husks is a great alternative to traditional latex mattresses. It does not absorb dust, making it a great product for those with allergies. There is some free space between the compartments, which makes the mattress airy, prevents perspiration and alleviates bedsores.

RELAXATION GLASSES SLEEP MASK

Our sleep mask - relaxation glasses are hand-made from soft 100% cotton, which is a natural material. On the front side there is a convenient sewn-on zipper through which the product is filled with dried lavender buds, chamomile or mustard or cherry pits. The product comes with a sewn-on elastic for easy fitting.

SEAT CUSHION

The seat cushion is handcrafted from natural materials - 100% cotton and buckwheat husk filling. Because of its many positive features, the cushion offers quality and comfortable sitting without pain in the buttocks.

HEAT CUSHION

A great tool for warm or cold pain relief. Versatile use as a heat cushion, cooling pack for pain relief, cough and headache cushion or a cushion for athletes.

MULTIPURPOSE BONAMAMA CUSHION

Bonamama is a slightly curved multi-purpose cushion in shape of a moon with convenient straps on each side for tying it together. A pregnancy pillow with many positive features offers a quality and comfortable rest and is also a welcome addition to your living space.

BATHROBE

A prestigious 100% cotton (waffle) bathrobe offers extreme absorbency and softness. The natural material does not cause skin allergies and is pleasant to the touch.
